

KLÖVERN
YEAR-END REPORT

| 2010

Klövern Year-end Report 2010

- Net profit for the year increased to SEK 605 million (237), corresponding to SEK 3.76 per share (1.48)
- Income amounted to SEK 1,243 million (1,254)
- Profit from property management amounted to SEK 439 million (493), corresponding to SEK 2.73 per share (3.07)
- Changes in value of properties amounted to SEK 298 million (–231) and changes in value of derivatives to SEK 23 million (34)
- The Board is proposing a dividend of SEK 1.50 per share (1.25), corresponding to 55 per cent (41) of the profit from property management.

Net profit for the year

SEKm	2010	2009
Income	1,243	1,254

Deferred and current tax	–155	–59
Net profit for the year	605	237

Cover: **Uppsala Fyrislund 6:6** – Uppsala Business Park is becoming ever more attractive with a continuous increase in the occupancy rate. During 2010, among other tenants, Kemwell, Anticimex and Gammadata Mätteknik have moved in and Svanova Biotect is moving into its new premises in February 2011.

Statement by the CEO

Record-high net moving-in

A high level of demand for premises, high net moving-in and rising property values. And as well as this, a strong Swedish economy. That briefly sums up the world Klöver is operating in at present. Despite cold winters, Klöver is reporting its second best profit ever from property management for 2010.

Net moving in, i.e. tenants moving in less vacating tenants, was record high at the end of 2010. In the last quarter, the surplus was as much as SEK 12 million and net moving-in for the whole year totalled SEK 16 million.

Demand for premises is good. During 2010, Klöver succeeded in clinching the year's largest lease transaction in Sweden. Ericsson is going to rent an additional 36,000 sq.m. in Kista, of which the major part is newly produced. At the beginning of 2011, Klöver had, in Kista alone, 18 outstanding offers each exceeding 1,000 sq.m. There is considerable interest in the ten floors with a wonderful view, totalling 5,000 sq.m. which Klöver is going to let at Victoria Tower.

Rental income were affected by the negative index during 2010. The effect will be positive instead in 2011. The high level of demand also provides good prospects to be able to raise rental levels, in particular for new leases, but also for renegotiated leases during 2011.

Property costs have been clearly higher than previously due to high costs for ice and snow clearance as well as high costs for electricity and heating. Klöver continues the work to reduce the risk on costs as far as possible.

The property market is functioning again and market rents are rising, which are important reasons for property values increasing again. The unrealized changes in value of Klöver's property holdings amounted to SEK 272 million during the year, corresponding to a rise of just over 2 per cent. Klöver's aim of growing by at least SEK 1 billion per year was met during 2010. On 1 October, we took possession of properties for SEK 1.1 billion in Linköping, Norrköping and Örebro. The portfolio had a high level of vacancies, 26 per cent, but despite this, we have succeeded in maintaining the economic occupancy rate for the company at 89 per cent. In terms of space, vacancy is almost twice as high. We expect to be able to reduce vacancy in terms of space during 2011 after our efforts to hone the letting organisation.

Gustaf Hermelin

Klövern is a real estate company committed to working closely with customers to meet their needs of premises and services in Swedish growth regions. Klövern has business units in ten cities: Borås, Karlstad, Kista, Linköping, Norrköping, Nyköping, Täby, Uppsala, Västerås and Örebro. As at 31 December 2010, the value of properties totals SEK 13.5 billion and the rental value was SEK 1.5 billion. The Klövern share is listed on Nasdaq OMX Stockholm Mid Cap.

Income statement items refer to the period January–December and are compared with the corresponding period last year. Balance sheet items refer to the position at the end of the year and the comparative figures the most recent year-end.

Profit

Profit from property management, i.e. profit excluding changes in value and tax, amounted to SEK 439 million (493) during January–December. Profit for the year amounted to SEK 605 million (237). The profit for the year includes positive changes in the value of properties at SEK 298 million (-231) and positive changes in the value of derivatives at SEK 23 million (34). Equity increased to SEK 4,516 million (4,112) and the equity ratio was 32 per cent (33) at the end of the year.

For comparable portfolio, operating surplus amounted to SEK 709 million (747).

Other income	10	23
Property costs	-474	-447
Operating surplus	709	747

* Refers to the properties owned during 2009 and 2010.

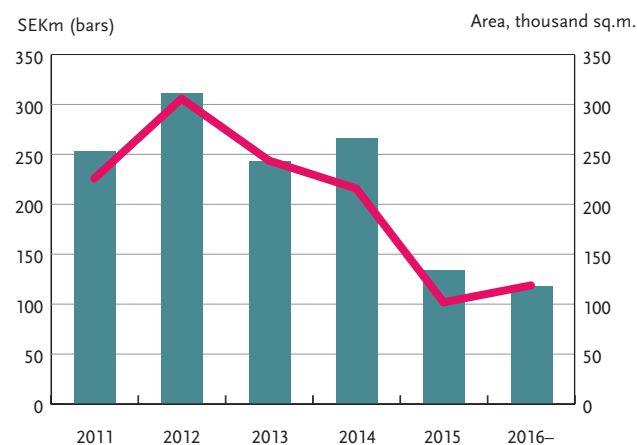

Income and occupancy rate

Income during the year amounted to SEK 1,243 million (1,254), of which rental income was SEK 1,233 million (1,231). Rental income has been negatively affected by index reduction due to a negative CPI development during 2009 and positively by the increase in the property portfolio of almost SEK 1.1 billion during the fourth quarter of the year. Other income, SEK 10 million (23), decreased due to lower income from rental guarantees and lease redemption payments.

The average remaining lease term was 2.8 years (2.9) and the economic occupancy rate was 89 per cent (89) at the end of the year, despite a high level of vacancy in the property portfolio taken possession of on 1 October. The occupancy rate in terms of area was 79 per cent (80).

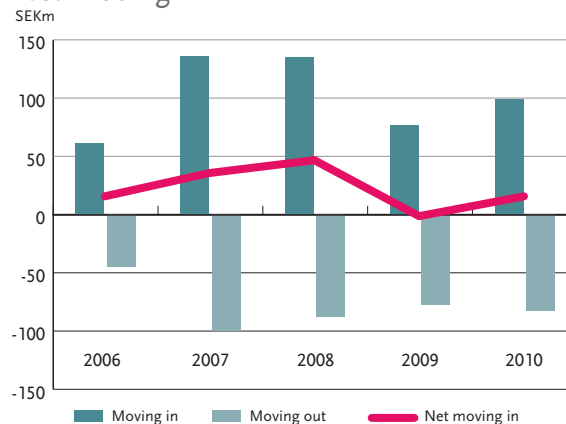

New letting affects the rental value and rental income when the tenants move in. This does not always have a full effect on the occupancy rate as the value of the previously vacant areas may be less than the rent in the new lease.

Lease contract structure

Letting work has been successful. Klövern's net moving-in during the year, i.e. tenants moving in minus moving out amounted to SEK 16 million (-1). The value of the leases for tenants moving in together with leases entered into during 2010, but still has not moved in, amounted to SEK 189 million.

Net moving in

Ekholma 7 in Borås: The property consisting of 5,150 sq.m. was vacant by the time of the acquisition 2009, but is now, due to a good letting, fully let.

Costs and operating margin

Property costs amounted to SEK -498 million (-474) during the year. The increase is mainly due to high costs due to snow and ice clearance in the winter and high energy costs during the first and last cold quarter of the year. The property costs include customer losses of SEK -3 million (-5). The operating surplus was SEK 745 million (780), which entails an operating margin of 60 per cent (62). Central administration costs amounted to SEK -64 million (66) of which SEK -5 million (-9) is attributable to costs for pursuing Klöver's tax cases.

Cash flow

The cash flow from current operations was SEK 507 million (490). Income tax paid amounts to SEK -3 million (-9). Investment operations have affected the cash flow by SEK -1,165 million (-373) net, mainly due to acquisition of properties during the last quarter of the year and investments during the year. The cash flow from financing operations has had an effect of SEK 670 million (-160). Overall, cash flow for the year totals SEK 12 million (-43).

Financing

At the end of the year, interest-bearing liabilities amounted to SEK 8,517 million (7,646). The average financial interest rate for the whole of the financial portfolio amounted to 3.6 per cent (2.7). Excluding derivatives and the cost of credit agreements and the overdraft facility, the interest rate amounted to 2.8 per cent (1.2) on 31 December.

The average fixed-interest term was 2.4 years (3.2). Credit volumes with swap agreements are treated as having fixed interest. The average period of tied-up capital was 2.0 years (1.8). Not utilized credit volumes, including not utilized overdraft facilities of SEK 170 million (200), totalled SEK 1,424 million (1,128) as at 31 December.

At the end of the year, Klöver had interest rate caps of SEK 2,500 million (3,599), of which SEK 1,000 million matures during 2011 and SEK 500 million per year in 2012, 2013 and 2014. The interest rate caps have redemption rates of 4.25–4.50 per cent.

On 31 December, swap agreements totalled SEK 3,800 million, of which SEK 1.4 billion matures in 2015, SEK 1.4 billion in 2016 and SEK 1 billion in 2017.

Klöver's interest swaps and interest caps effectively limit Klöver's interest rate risk. An increase in the short market rates of one percentage point would increase Klöver's average borrowing rate by 0.6 percentage points. If the market rate increases by four percentage points, Klöver's borrowing rate would increase by just under 2 percentage points, from 3.6 per cent to 5.5 per cent.

Sensitivity analysis of the borrowing rate

Change in market interest rate by X percentage points.

Rising long market rates during 2010 have meant rising values of Klöver's derivatives. The change in value of derivatives amounted to SEK 23 million (34) during the year and the value was SEK -13 million (-31) on 31 December. The change in value does not affect the cash flow. On maturity, the value of the derivative is always zero.

FIXED INTEREST AND TIED-UP CAPITAL

Total	8,517	3.6	9,941	8,517	1,424	

Property transaction

During the year, 38 properties (5) have been acquired for a price totalling SEK 1,067 million (179) and a lettable area of 161,000 sq.m. (25,000).

During the year, Klöver has sold nine properties (4), comprising 27,000 sq.m. (14,000), where possession has also been transferred during the year. These sales were intended to achieve further concentration of the property portfolio. Sales for the year totalling SEK 368 million (162) have led to positive realized changes in value of SEK 26 million (36).

Investments and building rights

Investments at existing properties often take place in connection with new letting with the aim of customising and modernising the premises and thus increasing the rental value.

During the year, SEK 464 million (351) was invested in existing properties. A total of 149 projects (118) were in process at the end of the year for an estimated expenditure totalling SEK 1,456 million (633), of which SEK 819 million (233) remains to be invested.

Building rights at year-end were estimated to amount to 611,000 sq.m. (633,000), of which 200,000 sq.m. in Kista. The major part of the building rights consist of offices. 229,000 sq.m. (204,000) of the building rights are included in local plans. The value of the building rights totalled SEK 425 million (405).

Idéläran 1 in Linköping: The property was part of the property portfolio totalling SEK 1,055 million that Klöver took possession of October 1, 2010.

Properties and changes in value

As at 31 December 2010, Klöver's portfolio consisted of 250 properties (217). The rental value totalled SEK 1,486 million (1,385) and the fair value of the properties was SEK 13,493 million (12,032). The total lettable area amounted to 1,528,000 sq.m. (1,392,000).

During the year, the changes in value of the properties totalled SEK 298 million (-231). The changes in value include realized changes in value of SEK 26 million (36) and unrealized changes in value of SEK 272 million (-267). The unrealized changes in value do not affect the cash flow.

On average, Klöver's property portfolio has been valued, as at 31 December, with a required yield of 7.2 per cent (7.2). Despite a general downward trend on the market, the required yield remains at the same level as at the beginning of the year. Yield levels have fallen for properties in good locations with strong tenants but this has been offset by higher yield requirements on acquired properties as well as by lower yield requirements on sold properties. The unrealized changes in value have mainly arisen through positive net moving-in and increased market rent. Klöver values 100 per cent of its property each quarter. Of the valuations 20–30 per cent have been carried out by DTZ Sweden and the remainder by Klöver. Accordingly, every property in the portfolio is externally valued at least once during a rolling 12-month period. DTZ has also served as advisor when the required yields have been determined in the internal valuations. See Klöver's annual report for 2009 for a more detailed description of valuation principles.

The share and shareholders

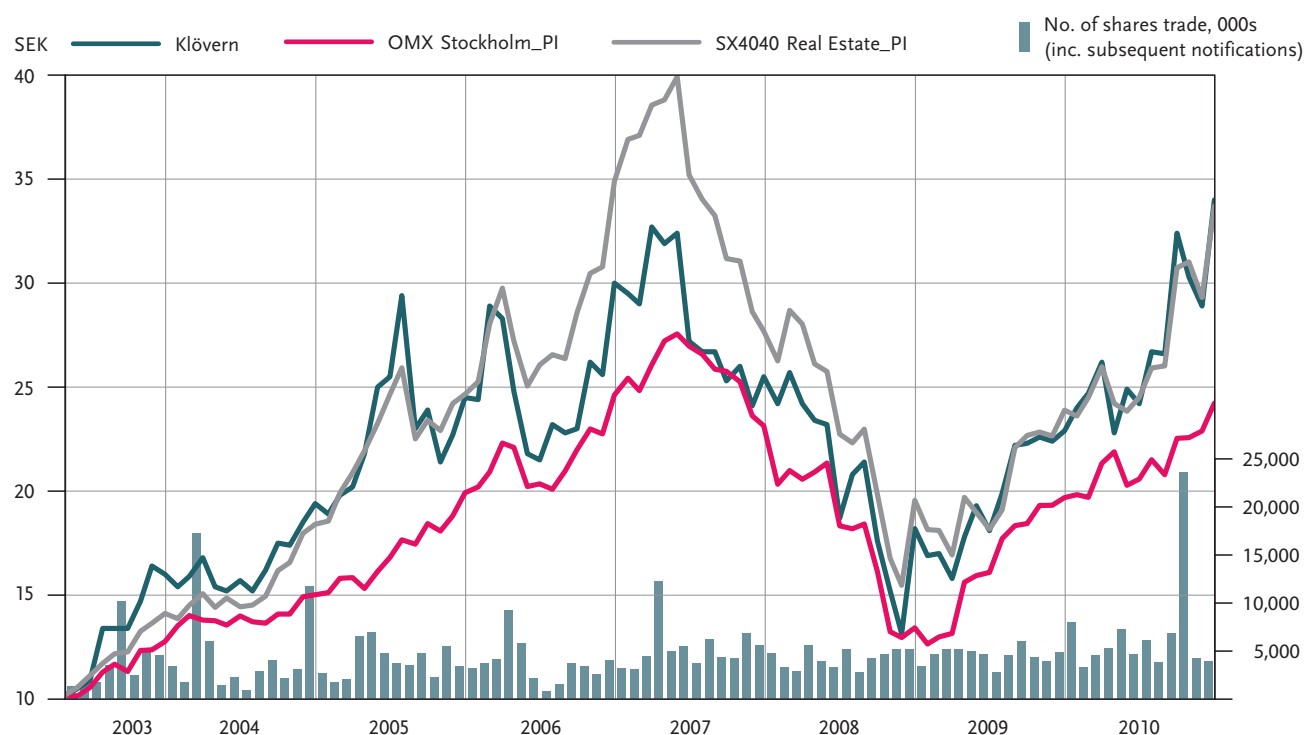

The Klöver share is listed on Nasdaq OMX Stockholm Mid Cap. On 31 December, the share price was SEK 34.00 per share (22.90), which corresponds to a total capitalization of SEK 5,467 million (3,682) based on the number of outstanding shares. The total return, i.e. change in price and the actual dividend amounted to 54 per cent (31). As at 31 December, the number of registered shares in Klöver was 166,544,326. The number of shareholders was 27,754 (29,943), of which 83 per cent (86) were Swedish.

The Board of Directors of Klöver has been authorized since 2007 to repurchase Klöver shares up to a maximum of 10 per cent of the total number of registered shares. Klöver has repurchased 5,741,463 shares, corresponding to 3.4 per cent of the total number of registered shares. These shares were acquired at an average price of SEK 22.15 per share. No new repurchases have taken place during the year.

The tax situation

Outcome of tax cases

In August 2010, the Administrative Court of Appeal pronounced a judgment granting Klöver AB a loss carry-forward of SEK 108 million for conversion of claims to shareholders' contribution.

In February 2010, the Administrative Court of Appeal decided in favour of Klöver AB in the matter of a tax surcharge of SEK 493 million. According to the Administrative Court of Appeal, and also previously the Administrative Court, a tax surcharge cannot be imposed as Klöver AB had withdrawn its request for an additional deduction at the time the surcharge was imposed. The Tax Agency appealed the case to the Supreme Administrative Court, which has notified leave to appeal. If Klöver AB, contrary to expectation, were to lose, the issue of whether Klöver AB has submitted incorrect information will be taken up again at the Administrative Court.

At the end of 2003, Klöver AB requested that tax assessment for 2003 should be reconsidered with a view to having considered whether Klöver AB was entitled to an additional tax loss carryforward of SEK 4,933 million. In the spring of 2006, Klöver AB withdrew its request for reconsideration and submitted a new request for a loss carryforward in 2006. The renewed request was rejected by the Administrative Court in February 2009 and by the Administrative Court of Appeal in August 2010. Klöver AB has requested leave to appeal to the Supreme Administrative Court.

Tax for the year

Deferred tax of SEK -41 million has been charged to profit of current real estate operations. Furthermore, among other things, the change in the difference between fair value and residual value of properties and derivatives for tax purposes has entailed deferred tax of SEK -138 million. In addition, the deferred tax cost has decreased by SEK 28 million due to the loss carryforward granted by the Administrative Court of Appeal. In total, profit for the year includes a cost for deferred tax at SEK -151 million (-50) and current tax of SEK -4 million (-9).

Current tax refers to tax in acquired companies during 2010 and tax charged by the Tax Agency and tax surcharge for the 2008 year of assessment in accordance with the reconsideration decision in April 2010.

Organisation and personnel

Klöver AB's business model entails closeness to the customer by having our own staff at all business units. All employees work in accordance with the motto "making the customer's day easier every day". During 2010, the ten business units have been reorganized into three geographic market areas. The main objective is to share the highly qualified resources, particularly in projects and letting. The market areas are South (Borås, Linköping, Norrköping and Nyköping), West (Karlstad, Västerås and Örebro) and East (Kista, Täby and Uppsala).

At the end of the period, the number of employees in Klöver AB was 126 (123). The average age was 44 years (44) and the proportion of women was 43 per cent (39).

Significant risks and uncertainty factors

Klöver AB's significant risks and uncertainty factors are described on pages 26–29 of the 2009 annual report. No significant risks have arisen subsequently.

Accounting policies

This interim report for the Group has been prepared in accordance with the Annual Accounts Act and IAS 34 Interim Financial Reporting and, in the case of the parent company, the Annual Accounts Act. The accounting policies applied in this interim report are those described in Klöver AB's annual report for 2009, note 1.

Events after the end of the year

In January 2011, the property Niten 6 in Borås was acquired. The area was 4,000 sq.m. and the price SEK 22 million. On 1 February 2011, Klöver AB transferred possession of the properties Glasfatet 4 and Pagoden 2 in Linköping for a purchase price totalling SEK 23 million. After the end of the year, Klöver AB has renegotiated credit agreements of SEK 400 million.

Dividend

The Board is recommending a dividend of SEK 1.50 per share (1.25) for the 2010 financial year, corresponding to a total of SEK 241 million (201). This proposal means that 55 per cent (41) of the profit from property management will be distributed to the owners.

It is proposed that the record date for dividend be 21 April and payment date 28 April 2011.

Annual General Meeting and Annual Report

The 2011 Annual General Meeting will take place at Kistamässan in Kista Stockholm on 18 April 2011, at 4 pm.

Notice of the Annual General Meeting and prerequisites for notifying attendance will be advertised in Svenska Dagbladet and the Swedish Official Gazette, Post & Inrikes Tidningar and be published on Klöver AB's website, klovern.se. Shareholders wishing to make proposals to the Nominations Committee may do so by e-mail to styrelsenominering@klovern.se.

The Annual Report for 2010, in Swedish, will be available on Klöver AB's website, klovern.se, from week 10, 2011.

Review report

To the Board of Directors of Klöver AB (publ)
Reg.no. 556482-5833

Introduction

We have reviewed the interim report for Klöver AB (publ) as at 31 December 2010 and the twelve-month period that ended on that date. The Board of Directors and the CEO are responsible for preparing and presenting this interim report in accordance with IAS 34 and the Annual Accounts Act. Our responsibility is to express an opinion on this interim report based on our review.

The direction and scope of the review

We have performed this review in accordance with the Standard for review (SÖG) 2410 *Review of financial interim report information performed by the auditor appointed by the company*. A review consists of making enquiries in the first place to persons who are responsible for financial issues and accounting matters, performing an analytical review and undertaking other general review measures. A review has a different focus and a

considerably reduced scope compared with the focus and scope of an audit in accordance with Auditing Standards in Sweden RS [in Swedish] and generally accepted auditing standards otherwise. The review measures undertaken do not make it possible for us to acquire such certainty as to be aware of all important circumstances that could have been identified in the performance of an audit. The conclusion stated is based on a general review and does not therefore have the same degree of certainty as a statement based on an audit.

Conclusion

On the basis of our general review, no circumstances have emerged which would lead us to consider that the interim report is not, in all substantial, prepared in accordance with IAS 34 and the Annual Accounts Act for the group and, in the case of the parent company, with the Annual Accounts Act.

Stockholm, 17 February 2011
